### President's Corner By Steve Lightle

August 2010 President's Corner

The 2010 edition of Pilchuck Camera Clubs annual picnic was held Saturday, August 28<sup>th</sup> at Ferguson Park in Snohomish. Diana was concerned that I wasn't getting to the park early enough (9:00 AM) to guarantee the club got the 'first come, first serve' picnic shelter. Wasn't an issue. When the dogs and I arrived there was only one other person in the park and they were walking their St. Bernard.

No rain – YEAH! A bit cloudy / overcast a bit chilly when the clouds covered the sun but overall a great day.

Here's all of us; members, guests and puppies immediately after the picnic.

September's meeting is going to be a busy time. For our program, Harvey will be showing images from Hearst Castle located in California. For education were going to do a follow up on images judged and critiqued with the goal of improving our judging and our images. And then to top everything off, all of you who have been just itching to get a chance to participate in the management of the club... well it's election time and we need a full set of new officers. If I were you I'd start planning your election campaign now as the competitions likely to be fierce <sup>(C)</sup>.

#### PURPLE PASQUEFLOWER BY JANET WRIGHT

I have known of the Pasque Flower as a very photogenic plant from the time I first saw an image which I loved, when Pilchuck CC judged a competition. I always hoped to find a plant of my own and finally this year I was able to "try my hand" at getting a shot of this unusual flower. I used my Canon 30D with Canon macro 100 lens, on a tripod. I take my flower close-ups in my "studio tent" to enable soft indirect lighting which

is filtered through the tent. This tent allows me to take close-ups without harsh shadows and in natural light. I used aperture priority set at f22.

Taking flower shots has long been a favorite pastime and I had to learn that there is little hope for taking a good shot in the garden when they are easy to find- it takes a real effort to produce the images I want. This is a favorite subject.
